

## Stockland Shellharbour - Engineering and building surveys on the Illawarra's premier shopping destination. A 30 month project for LandTeam Surveyors.

LandTeam Surveyors provided the surveying services to **BROOKFIELD MULTIPLEX** on the \$330 million dollar redevelopment of Stockland Shellharbour.

Surveying work on the site has recently been successfully completed with all stages of the redevelopment are now open and operational.

The redevelopment almost doubled the size of the previous centre and created the only major regional shopping centre between Miranda, Campbelltown and Canberra. The redeveloped centre includes Myer department store, two supermarkets, 220 speciality stores, over 3,000 car parking spaces, becoming the Illawarra's premier shopping destination.

LandTeam Surveyors also provided services to a myriad of multiplex subcontractors including **WARD CIVIL** (excavation and bulk earthworks), **TOLCO PTY LTD** (structural steel instalment), **BORAL** (concrete works), along with the trade services provided by:-

**AYZ LANDSCAPES,  
DEEMAH STONE PAVING,  
PEBBLECRETE PAVING,  
DELTA GROUP,  
CITY BRICK LAYING,  
SHARVAIN PROJECTS.**
